

Math Cloud

Equipment

- Paper
- Scissors
- Dice

Instructions

- Draw a cloud and cut it out
- Attach strips of paper to the cloud
- Draw squares along the strips and write number in (this can be one strip has the same number or odd and even numbers)
- Roll a dice 10 times
- With every roll, cut the number square off a different strip to create a rain cloud
- Or write whichever numbers that are relevant to the learning (times tables, answers to math sum) and either randomly say the numbers or use bingo balls
