

Sorting Bins

Equipment

- Magnetic fishing rod
- Paperclip
- Sorting trays

Instructions

- For this example, we used rubbish to sort but this can be done with any answers needed (for example Math answers)
- Set out environments into a space/tuff tray- these can be ocean, beach, land, forest
- Place items and/or words that are thrown out by people
- Attach a paperclip to each item/word
- Using a magnetic fishing rod ask pupils to collect the rubbish and place in the correct recycle bin
